President's Message

At White Eagle Credit Union, we believe protecting the privacy and security of our members' accounts is our most important responsibility. When we discover a data breach at a large retailer, we take action and issue new credit and debit cards for members who were affected.

The possibility of having your personal financial data stolen is a burden. You shouldn't have to worry about who is going to pay the bills for the fraud.

In 2017, 1,579 data breaches occurred in the USA, which is a 44% increase from 2016. You probably assume that retailers are responsible since their security failure caused the theft of your data. However, credit unions like White Eagle bear the brunt of these costs. Because we are a not-for-profit cooperative, we all share in the cost. Merchants can shift a lot of the cost of their data breaches to consumers. That is why credit unions across the country are working together to improve protections for consumers. I hope you will consider lending us a helping hand by contacting your US Representative and US Senator. Tell them you would like for them to consider taking action to protect consumers. Thank you.

Sincerely,

Richard J. Blue
